**SECTION C - DESCRIPTION/SPECIFICATIONS/WORK STATEMENT**

## **C.1 GENERAL SPECIFICATIONS/STATEMENT OF WORK**

The USDA, Animal Plant Health Inspection Service, Plant Protection and Quarantine (PPQ), requires Gypsy Moth Traps to conduct insect presence and levels of population survey to support the decision-making program activities.

The Delta Trap design is required in three colors: green, orange and brown.

Paper samples and first article samples of the product offered shall be provided for testing and acceptance prior to production of the full contract quantity ordered. Production overruns or slight dimensional changes caused by lot quantity procurement of cutting of base materials shall be identified to the Contracting Officer (CO) or Contract Administrator (CA).

First Article Approval may be waived by the Contracting Officer if the contract is awarded to a company with recent contract experience.

## **C.2 MATERIAL**

The traps shall be fabricated of hard sized, liquid packaging grade ½ gallon milk carton paperboard stock 0.24 inch nominal thickness and polyethylene plastic-coated on both sides. Variance from nominal thickness no greater than +.002 will be tolerable. The coating is typically .0062" outside (=9lbs. per 3,000 sq. Ft.) and .0012" inside. It is essential that the traps described herein are capable of withstanding outside service for a period of 90 days. Paperboard (milk carton grade) must exhibit good liquid holdout capability, especially where edges and cuts are exposed.

## **C.3 TESTING AND APPROVAL OF PAPERBOARD SAMPLES**

The Contractor shall furnish twelve 8 inch by 8 inch paperboard samples within 10 days after notice of award for inspection and approval for conformance to specifications.

## **C.4 FIRST ARTICLE TESTING AND APPROVAL**

A site visit will be arranged at the production facility to ensure the trap produced conforms to specification.

The Contractor shall deliver twelve (12) gypsy moth traps with adhesive, four of EACH COLOR, shall be provided within 14 days from the date of approval of the paperboard samples, for first article tests. Shipping documentation shall contain this contract number and the item identification. The characteristics that the first article must meet and the testing requirements are specified elsewhere in this contract.

Within 10 calendar days after the Government received the first article, the CO or CA shall notify the Contractor, in writing, of the conditional approval, approval, or disapproval of the first article. The notice of conditional approval or approval shall not relieve the Contractor from complying with all requirements of the specifications and all other terms and conditions of this contract. A notice of conditional approval shall state any further action required of the Contractor.

**All samples shall be sent to the following location for approval:**

USDA, APHIS, Plant Protection and Quarantine  
Attention: Natlie Leva  
Otis Plant Protection Center  
Building 1398  
Otis Air National Guard Base, MA 02542-5008

The results of tests conducted by the Otis Methods Development Center will be reported to the Contracting Officer within 10 working days after receipt of First Article Samples or samples of delivered products.

Testing shall include industry standard procedures described in the Technical Association of Pulp and Paper Industry (TAPPI) as method T-491 OM 85, and other tests designed to evaluate the adhesive coating, sizing, tensile strength, liquid holdout, and weatherability of the paperboard product used. Overall quality of the assembled trap will be evaluated.

## **C.5 FABRICATION**

The size, cutting, perforating, and precreasing shall be in accordance with the enclosed blueprint. Should the precreasing be directional, it should be done in such a manner that will assist in folding the traps into assembly. Precreasing shall be done in a manner that does not cut or otherwise damage the plastic coating.

## **C.6 ADHESIVE SOURCES**

Field service trials have been conducted by Plant Protection and Quarantine (PPQ) personnel testing various adhesives for use on the gypsy moth traps. It has been determined, as a result of the tests, that the only adhesives acceptable for use are:

“Stickem Special Hold Fast Formula or the High Tack Formula” manufactured and distributed by:

Seabright Enterprises, LTD  
4026 Harlan Street  
Emeryville, CA 94608

(510) 655-3126

or "Tangle Trap" manufactured by:  
The Tangle Foot Company  
314 Straight Avenue S.W.  
Grand Rapids, MI 49504

#### **C.7 MATERIAL SAFETY DATA SHEETS (MSDS)**

- A. The Contractor shall provide a Material Safety Data Sheet (MSDS) for the adhesive material and provide one (1) copy in each packaging container.
- B. The Contractor shall place six (6) copies of the Descriptive Drawing, provided by the USDA, as an attachment to this solicitation, in each packaging container.

#### **C.8 COLORS AND PRINTING**

Traps will be brown, green, and orange. The trap interior color shall match the exterior. The process used to color the trap surfaces shall be resistant to fading and withstand exposure to sunlight for a period of 60 days without appreciable loss of color. A grid on inch squares shall be printed in white on the interior surfaces. The width of the grid lines shall be approximately 1/64th inch. The printing shall be waterproof, visible through the adhesive coating and unaffected by the adhesive coating. (See drawing for details.)

#### **C.9 ADHESIVE APPLICATION**

A uniform coating of insect adhesive shall be applied to the two inside surfaces identified on the enclosed drawing. The amount of adhesive to be applied is ten (10) grams +/- (1) gram. The adhesive shall be applied in a manner which prevents deposition outside of the designated area.

The critical nature of the gypsy moth survey trapping programs prohibits the use of alternative adhesive materials. Following application of the adhesive, each trap shall be prepared for storage by folding in a manner that aligned the inside surfaces of panels B and C to prevent the adhesive coated surfaces from contacting non-adhesive surfaces.

#### **C.10 QUALITY CONTROL INSPECTION OF TRAPS**

During the manufacture of the balance of the traps, the Contracting Officer's Representative (COR) or representative authorized by her/him may elect to inspect and monitor the production of the traps at the production facility.

An inspections report will be forwarded to the CO. A final inspection will be made at each destination prior and problems reported in writing through the COR to the CO prior to acceptance.

Overall quality of the assembled trap will be evaluated. Testing will include industry standard procedures described by the Technical Association of Pulp and Paper Industry, Incorporated (TAPPI) as Method T-491 OM-85 and other tests designed to evaluate sizing, tensile strength, liquid hold-out, and weatherability of the paperboard product used. The results of any tests conducted by the Otis Plant Protection Center will be reported to the CO within 10 working days after receipt of the samples.

**SECTION D - PACKAGING AND MARKING****D.1 PACKAGING**

The Gypsy Moth Delta traps shall be positioned with the folded edge down, in lots of 250 traps per container. The container shall be sized to produce a snug fit and strength to withstand shipping, handling and stacking to heights of five (5) feet without crushing the containers at the bottom of the stack.

Prior to sealing each container, the following inserts shall be placed inside:

1. USDA descriptive drawing of Trap - six (6) of each
2. Material Safety Data Sheet - one (1) each

**I.4 52.217-7 OPTION FOR INCREASED QUANTITY--SEPARATELY PRICED LINE ITEM (MAR 1989)**

The Government may require the delivery of the numbered line item, identified in the Schedule as an option item, in the quantity and at the price stated in the Schedule. The Contracting Officer may exercise the option by written notice to the Contractor within **by the contract expiration date**. Delivery of added items shall continue at the same rate that like items are called for under the contract, unless the parties otherwise agree.

**I.5 52.232-34 PAYMENT BY ELECTRONIC FUNDS TRANSFER-- OTHER THAN CENTRAL CONTRACTOR REGISTRATION (MAY 1999)**

(a) Method of payment.

- (1) All payments by the Government under this contract shall be made by electronic funds transfer (EFT) except as provided in paragraph (a)(2) of this clause. As used in this clause, the term "EFT" refers to the funds transfer and may also include the payment information transfer.
- (2) In the event the Government is unable to release one or more payments by EFT, the Contractor agrees to either--
  - (i) Accept payment by check or some other mutually agreeable method of payment; or
  - (ii) Request the Government to extend payment due dates until such time as the Government makes payment by EFT (but see paragraph (d) of this clause).

## I.5 (Continued)

(b) Mandatory submission of Contractor's EFT information.

(1) The Contractor is required to provide the Government with the information required to make payment by EFT (see paragraph (j) of this clause). The Contractor shall provide this information directly to the office designated in this contract to receive that information (hereafter: "designated office") no later than 15 days prior to submission of the first request for payment. If not otherwise specified in this contract, the payment office is the designated office for receipt of the Contractor's EFT information. If more than one designated office is named for the contract, the Contractor shall provide a separate notice to each office. In the event that the EFT information changes, the Contractor shall be responsible for providing the updated information to the designated office(s).

(2) If the Contractor provides EFT information applicable to multiple contracts, the Contractor shall specifically state the applicability of this EFT information in terms acceptable to the designated office. However, EFT information supplied to a designated office shall be applicable only to contracts that identify that designated office as the office to receive EFT information for that contract.

(c) Mechanisms for EFT payment. The Government may make payment by EFT through either the Automated Clearing House (ACH) network, subject to the rules of the National Automated Clearing House Association, or the Fedwire Transfer System. The rules governing Federal payments through the ACH are contained in 31 CFR part 210.

(d) Suspension of payment. (1) The Government is not required to make any payment under this contract until after receipt, by the designated office, of the correct EFT payment information from the Contractor. Until receipt of the correct EFT information, any invoice or contract financing request shall be deemed not to be a proper invoice for the purpose of prompt payment under this contract. The prompt payment terms of the contract regarding notice of an improper invoice and delays in accrual of interest penalties apply.

(2) If the EFT information changes after submission of correct EFT information, the Government shall begin using the changed EFT information no later than 30 days after its receipt by the designated office to the extent payment is made by EFT. However, the Contractor may request that no further payments be made until the updated EFT information is implemented by the payment office. If such suspension would result in a late payment under the prompt payment terms of this contract,

**I.5 (Continued)**

the Contractor's request for suspension shall extend the due date for payment by the number of days of the suspension.

- (e) Liability for uncompleted or erroneous transfers. (1) If an uncompleted or erroneous transfer occurs because the Government used the Contractor's EFT information incorrectly, the Government remains responsible for--
- (i) Making a correct payment;
  - (ii) Paying any prompt payment penalty due; and
  - (iii) Recovering any erroneously directed funds.
- (2) If an uncompleted or erroneous transfer occurs because the Contractor's EFT information was incorrect, or was revised within 30 days of Government release of the EFT payment transaction instruction to the Federal Reserve System, and--
- (i) If the funds are no longer under the control of the payment office, the Government is deemed to have made payment and the Contractor is responsible for recovery of any erroneously directed funds; or
  - (ii) If the funds remain under the control of the payment office, the Government shall not make payment and the provisions of paragraph (d) shall apply.
- (f) EFT and prompt payment. A payment shall be deemed to have been made in a timely manner in accordance with the prompt payment terms of this contract if, in the EFT payment transaction instruction released to the Federal Reserve System, the date specified for settlement of the payment is on or before the prompt payment due date, provided the specified payment date is a valid date under the rules of the Federal Reserve System.
- (g) EFT and assignment of claims. If the Contractor assigns the proceeds of this contract as provided for in the assignment of claims terms of this contract, the Contractor shall require as a condition of any such assignment, that the assignee shall provide the EFT information required by paragraph (j) of this clause to the designated office, and shall be paid by EFT in accordance with the terms of this clause. In all respects, the requirements of this clause shall apply to the assignee as if it were the Contractor. EFT information that shows the ultimate recipient of the transfer to be other than the Contractor, in the absence of a proper assignment of claims acceptable to the Government, is incorrect EFT information within the meaning of paragraph (d) of this clause.

## I.5 (Continued)

- (h) Liability for change of EFT information by financial agent. The Government is not liable for errors resulting from changes to EFT information provided by the Contractor's financial agent.
- (i) Payment information. The payment or disbursing office shall forward to the Contractor available payment information that is suitable for transmission as of the date of release of the EFT instruction to the Federal Reserve System. The Government may request the Contractor to designate a desired format and method(s) for delivery of payment information from a list of formats and methods the payment office is capable of executing. However, the Government does not guarantee that any particular format or method of delivery is available at any particular payment office and retains the latitude to use the format and delivery method most convenient to the Government. If the Government makes payment by check in accordance with paragraph (a) of this clause, the Government shall mail the payment information to the remittance address in the contract.
- (j) EFT information. The Contractor shall provide the following information to the designated office. The Contractor may supply this data for this or multiple contracts (see paragraph (b) of this clause). The Contractor shall designate a single financial agent per contract capable of receiving and processing the EFT information using the EFT methods described in paragraph (c) of this clause.
  - (1) The contract number (or other procurement identification number).

testimony or statements of Government personnel.

- (iv) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.
- (v) Proposals may be withdrawn by written notice received at any time before award. Oral proposals in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile proposals, proposals may be withdrawn via facsimile received at any time before award, subject to the conditions specified in the provision at 52.215-5, Facsimile Proposals. Proposals may be withdrawn in person by an offeror or an authorized representative, if the identity of the person requesting withdrawal is established and the person signs a receipt for the proposal before award.
- (4) Unless otherwise specified in the solicitation, the offeror may propose to provide any item or combination of items.
- (5) Offerors shall submit proposals in response to this solicitation in English, unless otherwise permitted by the solicitation, and in U.S. dollars, unless the provision at FAR 52.225-17, Evaluation of Foreign Currency Offers, is included in the solicitation.
- (6) Offerors may submit modifications to their proposals at any time before the solicitation closing date and time, and may submit modifications in response to an amendment, or to correct a mistake at any time before award.
- (7) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.
- (8) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.
- (d) Offer expiration date. Proposals in response to this solicitation will be valid for the number of days specified on the solicitation cover sheet (unless a different period is proposed by the offeror).

## L.2 (Continued)

- (e) Restriction on disclosure and use of data. Offerors that include in their proposals data that they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, shall--

- (1) Mark the title page with the following legend:

This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed--in whole or in part--for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of--or in connection with--the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets **[insert numbers or other identification of sheets]**; and

- (2) Mark each sheet of data it wishes to restrict with the following legend:

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

- (f) Contract award.

- (1) The Government intends to award a contract or contracts resulting from this solicitation to the responsible offeror(s) whose proposal(s) represents the best value after evaluation in accordance with the factors and subfactors in the solicitation.
- (2) The Government may reject any or all proposals if such action is in the Government's interest.
- (3) The Government may waive informalities and minor irregularities in proposals received.
- (4) The Government intends to evaluate proposals and award a contract after conducting discussions with offerors whose proposals have been determined to be within the competitive range. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly

rated proposals. Therefore, the offeror's initial proposal should contain the offeror's best terms from a price and technical standpoint.

- (5) The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit cost or prices offered, unless the offeror specifies otherwise in the proposal.
- (6) The Government reserves the right to make multiple awards if, after considering the additional administrative costs, it is in the Government's best interest to do so.
- (7) Exchanges with offerors after receipt of a proposal do not constitute a rejection or counteroffer by the Government.
- (8) The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that the lack of balance poses an unacceptable risk to the Government.
- (9) If a cost realism analysis is performed, cost realism may be considered by the source selection authority in evaluating performance or schedule risk.
- (10) A written award or acceptance of proposal mailed or otherwise furnished to the successful offeror within the time specified in the proposal shall result in a binding contract without further action by either party.
- (11) The Government may disclose the following information in postaward debriefings to other offerors:
  - (i) The overall evaluated cost or price and technical rating of the successful offeror;
  - (ii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection;
  - (iii) A summary of the rationale for award; and
  - (iv) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror.
